

INDOOR TRAMPOLINE PARK GRAVITY

THE PARK RULES

- 1. Flight crew:** Our flight crew moves throughout our park to monitor compliance with park rules.
- 2.** They are present to assist with safe jumping practices, and injury assistance if needed.
- 3. Items:** We are not responsible for any lost, stolen or damaged personal property brought into or stored on the premises.
- 4. Springs:** An effort has been made to cover all springs between our trampoline beds to help avoid jumpers falling on, through, or in between the springs and steel framing.
- 5. Equipment:** Our staff regularly maintains the equipment and performs daily inspections in an effort to identify and replace worn down parts.
- 6. Padded Posts:** Steps have been taken to secure pads to all metal posts in the jumping arenas to help protect jumpers from injury.
- 7. Strategic Netting:** Where appropriate, netting is in place in an effort to help contain jumpers on the trampolines.
- 8. Flight/Gripper Socks:** These are available for purchase at R30/pair. They give the jumpers a little more traction on our trampoline!
- 9. Safety Signage** is posted at the entrance of the park. During flight, our staff will gladly remind you of these rules should you happen to “forget” while you are having fun.
